## SUMMARY

Detail-oriented Computer Science undergraduate at KIIT University with strong foundations in machine learning algorithms, data preprocessing, feature selection, data modeling, and predictive analytics. Experienced in supervised and unsupervised learning using scikit-learn, data wrangling, data visualization, and model deployment on cloud platforms. Familiar with TensorFlow and PyTorch frameworks. Completed a Systems Internship at NALCO (Navratna PSU). Built and deployed Pixgram, a live full-stack web platform. Seeking entry-level roles in Data Science or Machine Learning following agile methodologies and software development lifecycle best practices.

## TECHNICAL SKILLS

---

**Languages:** Python, SQL, JavaScript, HTML5, CSS3

**Frameworks & Libraries:** Flask, Jinja2, NumPy, Pandas, scikit-learn, Matplotlib, Seaborn, TensorFlow, PyTorch

**Tools & Platforms:** Git, GitHub, Docker, Jupyter Notebook, VS Code, Render, Cloud Platforms

**Concepts:** Machine Learning Algorithms, Supervised Learning, Unsupervised Learning, Data Preprocessing, Data Wrangling, Feature Selection, Feature Engineering, Model Deployment, Predictive Analytics, Data Modeling, Data Visualization, Big Data, SQL Queries, REST APIs, CI/CD, Agile Methodologies, Software Development Lifecycle

**Languages Spoken:** English (Full Professional), Hindi (Full Professional), Telugu (Native), Odia (Native)
